R C M report to

Delco A S C

February 20 2020

Delco RCM

Greetings N A members/trusted servants. How's it going? Welcome to the, hopefully, painlessly, brief report from the Greater Philadelphia Regional Service Committee, to be called GPRSC from now on, to the Delco ASC. We meet on the first full weekend Sunday of the even months at Roxborough Memorial hospital in the cafeteria. Meeting time is ten A M, however we usually start around ten thirty and go til around three or maybe four.

We started at ten thirty with the usual formalities: A moment of silence, twelve traditions, twelve concepts, introductions of all at meeting, area reports. We had nine RCMs present, which is an official quorum. On a positive note Montco area has returned back to the GPR after being a member of Eastern Pennsylvania Region since 2004.

Sub Committee Reports:

There are written copies of most of the GPRSC sub committees presentations at our meeting. Should you require further detail contact myself, Rachel O my alternate of check out the Regional news at naworks.org

RD:

First and foremost:
The World Service Conference meets this year.
WSC April 26 til May 2 2020

They meet every 2 years on the even years typically at the end of April. Delegates from NA regions all over the world, and since 2018, delegates from NA zones too meet and discuss current business and vote on pre selected motions concerning the future of NA as we know it. This info is called the CAR or conference agenda report. There are 16 motions from World Services and various regions to be voted on. Our area input is invited so that our voice on the various motions may be tallied into the final results. I am working on getting up to speed on as much as I can so I hopefully, can be an aid in the process. More will be revealed at the March and April ASC.

Our RD or regional delegate, and his alternate will be in attendance. This takes place at World Services in Woodland Hills California. As you may imagine this will be a crowded and hectic event.

Phoneline:

I recently found that if anyone wants to be a regional phoneline rep. Things have changed. The old timeslots method has been replaced by a log on log off system. Similar to the way an UBER or LYFT driver operates. There is a brief training involved which will educate a new rep on how to take calls to help the suffering addict. I am getting involved myself.

Treasurer:

There was discussion about getting a new storage unit. Currently we are paying around $330 a month or $4000 a year. We can get a different one for $2000 a year. The usual payments and disbursements were made.

Convention:

The future of the convention is up in the air as of now. There has been motions for the convention to cease and desist however they both failed. At one time the convention was a good money maker for our region but not lately. There is a survey about the convention to be taken to groups but late in the RSC meeting there was a decision to hold off on any convention talk, ideas, etc. until after the world convention.

There was a lot more business discussed. As stated earlier I can answer or get answers to any questions about Regional Business.

Open convention committee Positions:

Treasurer
Policy Chair
Merchandise Chair

All area subcommittee chairs or committee members are encouraged to attend the Regional meetings of their corresponding committee. They meet on the first Saturday of every month at Roxborough Hospital at different times. A schedule can be found on the regional website.

I, and most of the RSC members are very pleased with consensus based decision making. This is a different way to make, discuss and pass decisions, than Roberts Rules of Order.

Thank You

Mike S.
